More articles : Country Living editors select each product featured. If you buy from a link, we may earn a commission. More about us. Retrace the sleuth's 81 years of crime-solving. Sep 19, 2011 1 of 5 1930s "Before the 1930s, there weren't any books with teenage heroines who chased villains down dark alleys," says Jenn Fisher, author of Clues for Real Life: The Classic Wit and Wisdom of Nancy Drew and president of the fan site nancydrewsleuth.com. The first Nancy Drew book, 1930's The Secret of the Old Clock, was ghostwritten by Mildred Wirt, who penned 23 Nancy Drew titles as Carolyn Keene—the same pseudonym used today. An original edition can bring \$5,000 in mint condition; Wirt's autograph doubles this copy's value to \$10,000. Eight years after the novel's debut, the series spawned a movie, Nancy Drew: Detective. A lobby card from that film now sells for up to \$800. 2 of 5 1940s In the 1940s, Nancy's new hairdo, an au courant Lauren Bacall style, came courtesy of illustrator Russell Tandy, who drew all but one of the series' covers between 1930 and 1949. The heroine's gutsy demeanor remained much the same during this decade, as did plotlines—often about heists or missing heirs. Both themes appear in 1943's The Clue in the Jewel Box, which earns an appraisal of \$200. 3 of 5 1950s Nancy's age jumped from 16 to 18 in 1950, and she morphed from a feisty gunshoe into a demure debutante who deferred to police and drove only "as fast as the law allowed." Just check out her prim look on 1953's The Ringmaster's Secret, which sells for around \$140. (The girl detective didn't fully regain her spunk until the '80s.) In 1957, Parker Brothers issued one of the earliest licensed products, the Nancy Drew Mystery Game; it now garners up to \$250. 4 of 5 1960s Book values fell during the '60s as dust jackets gave way to hardcover illustrations and the now-familiar yellow spines. For 1967's The Clue in the Crossword Cipher—a title that can command \$100—Nancy's cover portrait depicted a more fashion-forward teen, sporting a mod shift. "This outfit was inspired by an issue of Vogue," says Fisher. 5 of 5 1970s The 1970s saw a licensing bonanza with Nancy Drew lunch boxes, a TV show—and this 1973 cookbook we found on eBay, which features a recipe for Sleuth Soup (a dubious mix of tomato juice, whipping cream, and beef broth). Published in 1971, The Crooked Banister reflects America's then-fascination with futuristic science fiction via a robot on the cover. Books from this decade are more common, pegging the worth of this particular title at \$30. The era also spelled the end of the Stratemeyer family's control of the series, with Simon & Schuster taking over the publishing in 1979.
